„We build excellent products for modern office environments. It's of utmost importance for us to place the customers and their requirements at the centre of our own work. From planning and product development right through to the installation of the furniture produced the user always plays the paramount role for PALMBERG.“

Stefan Hartwich, Management Distribution

Europe-wide distribution of modern office furnishings

"Today's professional office planning requires a lot of know-how. Our daily challenge is to create working environments in an inspiring ambience meeting the needs of the user. A competent, dedicated and always motivated team of field service and office staff advises, designs and plans your new office landscapes in cooperation with our authorised retail partners. Throughout all planning stages you are optimally kept informed both about the design and the commercial offers."

Your schedule determines our actions!

Christian Zwiebelmann, Management Delivery

"The goods of our customers are so valuable for us that we do not pass them on to other hands. In order to deliver our furniture to the recipient safely and on schedule, we transport them Europe-wide with our own fleet of vehicles. The use of a telematics system allows PALMBERG accurate documentation of the temporal sequence of the deliveries. For one hundred percent just-in-time delivery is our goal."

Our working worlds are exclusively distributed nationwide and to the neighbouring countries Netherlands, Belgium, Luxembourg, Austria and Switzerland through an extensive network of specialist dealers.

"It's our daily task to design innovative working environments that are fit for future needs and adapt to the new forms of working and communication in a constantly changing world of work. As a think tank of new office concepts, our development department is oriented both towards the demanding requirements of modern working environments and uncompromising quality. In addition, suppliers and partners are selected with reference to a large number of specific features, particularly including, along with quality, criteria from the fields of environmental protection and social responsibility. This way we become your specialist for modern and ergonomic office furnishings and offer you the suitable products for further optimisation of your workflows."

Doreen Möller, Integrated Management Systems

"For PALMBERG sustainable thinking and acting has become an integral part of the own corporate philosophy and is practically applied in every division of the company. All PALMBERG products are subject to the strict requirements of Quality Management ISO 9001:2008 combined with Environmental Management ISO 14001:2004, Occupational Health and Safety Management BS OHSAS 18001:2007 and Eco-Audit Regulation (EC) No 1221:2009 (EMAS III). Since 2015 PALMBERG has assumed responsibility for the environment by implementing the Energy Management System ISO 50001:2011."

"The wish list of our customers is often so individual that some of the requirements cannot always be covered by a product available from our ranges. In our Custom Production Department we therefore manufacture special office ideas and adapt our products to our customers' requests and the respective situations, spaces and projects."

- München
- Stuttgart
- Netherlands
- Switzerland

Experience comfortable working worlds in our showrooms and find inspirations for your office plans. In easily accessible exhibitions we offer our specialist retail partners, interested end customers and architects the opportunity to give free rein to their creativity in the matter of workplace arrangement. You can expect to experience innovative design with the chance to touch and maximum functionality to try out.

Architecture is omnipresent. Buildings serve as a catalyst for change – both outside and inside. We, the PALMBERG people, have made it our business to fill the constructed workspace and its architecture with life. Space is more for us than just four walls for working. We analyse and interpret our customers' needs and expectations in order to reach best results in a joint, creative process. This way we form an office architecture which has a positive impact on wellbeing and combines various functions and whose relevant single parts are in constant interrelationship.

The quality of our office furniture has already convinced many renowned customers!
